Dear Dr. Doggett:

Your letter of June 30th is received. I rejoice with you in the successful consummation of the campaign on which you and your associates have been working so diligently for the past year or two. Your achievement is a signal one for the task has been most gigantic and difficult. It has been a pleasure to me to have a part in the work, and you are especially to be congratulated on having such staunch support and cooperation as Mr. Herbert Pratt has given.

Very sincerely,

John D. Rockefeller Jr.
