Dear Ned:

Your article re Keith in last Bulletin is another gem. You do a bang-up job on the whole periodical.

Re A. G. Johnson, whose picture I did not identify in the group with Roggett: I suppose 25 persons have written to tell me whose picture it is. A real fausses on my part.

Why not run an item in the Bulletin in some place sure to be seen, to the effect that Roggett may be purchased through the book shop, all of the proceeds except handling and service charges credited to the scholarship funds for students from abroad. \$3.00

Has anyone called your attention to Dr. John Peck of the University of Texas who is <sup>our</sup> our country's most distinguished specialists in the field of education of retarded children? Was called in by President Kennedy for consultation, etc. He has a perfectly cooking story. Sincerely

L. K. Hall
